

BAMBAS RODA DE SAMBA

Live Brazilian samba in a traditional roda, with the band playing in the middle of the crowd.

Bambas Roda de Samba is an Amsterdam-based band playing samba de raiz, the roots samba of Brazil, in the form of a roda de samba. The musicians play in a circle with the audience close around them, and the whole room sings along. Bambas plays festivals, venues, weddings, company events and private parties across the Netherlands and Europe.

ABOUT

THE RODA COMES TO YOU

Bambas Roda de Samba brings the roda de samba, Brazil's traditional samba circle, to stages and parties across the Netherlands. Based in Amsterdam, the band plays samba de raiz: roots samba with cavaquinho, guitar, pandeiro and percussion, and choruses the whole room can sing.

The roda is where samba lives: an informal circle where musicians and friends gather to play, sing and celebrate. That is what Bambas brings to every show. There is no stage between band and public. People dance around the circle, join the choruses and become part of the music, whether it's a neighbourhood café, a festival field or a wedding.
